

[PLAYER SAFESPORT] - Simplified Instructions - [READ CAREFULLY]

To ALL Club Personnel & Risk Management Coordinators:

As indicated in the System Message date 1-18-2024, Safesport for Players born in 2005 & 2006 turning 18 this seasonal year, the Player Safesport Risk Management will **become active on FEBRUARY 15TH**.

The affected Player(s) will need to complete Safesport training before their Roster Eligibility turns back to Green "Fullfilled" status.

Please ensure that **ALL three (3) Risk Management Account Guidelines from the previous System Message (1-18-24)** have been followed **BEFORE** the Player attempts to complete this training. Any account conflicts with a Parental account will cause certification issues. (**IMPORTANT**: *If a Player has an existing USSF Learning Center account under a parent's email this account MUST be changed to reflect the Player's own email address/UserID used in GotSport.*)

Once the above criteria are met, the Player may then log into their GotSport account and follow the same directions that Adult Club Staff, Coaches & Volunteers use to complete the training (*see the Onboarding link below*). The Player will see a similar Dashboard to that of an Adult Club member except they will only see the Safesport Requirement (*see Picture 1 below*). If the Player is also Referee or Coach, they will also see a corresponding screen below that applies to that role (*see Picture 2 below, they will differ between 17 & 18/19 year olds*).

Onboarding Link - Select "Safesport Abuse Training-Individual Submission" (ignore the other two): <https://gotsport.zendesk.com/hc/en-us/articles/13440672139415-Phase-3>
